- Python
- JavaScript
- HTML and CSS
- Bootstrap

Experience

Tech Help Service and Repair Center / August 2022 – present

In this position I help users on the Kent Campus troubleshoot their personal and University-Owned devices. I work with a ticketing system to maintain documentation on repairs and handle user inquiries. This position requires me to use customer service and technical knowledge to solve problems.

Internship at River Valley Local Schools / September – October 2021

In this internship opportunity, I helped River Valley manage a backlog of student Chromebooks which needed to be cleaned, tested, and put back into circulation. During my time in this position, I developed a web application to test the microphone, speakers, keyboard, and camera of each Chromebook. This application ran faster than the previous web application and saved our team time.

Volunteering and Leadership

Phi Theta Kappa / Regional Officer: Western District Representative

In this role I help facilitate communication between Phi Theta Kappa chapters in the Western district of Ohio and the Regional coordinator. In my chapter I have helped increase productivity by implementing Trello into our workflow.

Eagle Scout Project / Pergola Bench Swing at DeCliff Trailhead

I have finished my eagle project for the Marion County Park District. I achieved the rank of Eagle in October of 2021.
